EXPERIENCE

Freelance November 2025 - Present

Mid-level Front End Developer

Deliver high-quality front-end solutions for diverse clients, balancing clean code and user experience. Focus on improving load times, accessibility, and maintainability through smart use of frameworks and performance optimization. Translate requirements into elegant, scalable solutions while continuously refining workflows and front-end best practices.

Mechanized December 2022 - November 2025

Mid-level Front End Developer

Develop and maintain responsive, high-performance web and mobile interfaces using React, Next.js, TypeScript, and modern CSS frameworks. Collaborate with cross-functional teams to deliver scalable features, optimize performance through code splitting and caching, and ensure cross-browser compatibility. Contributed to improving development workflows by implementing reusable components, version control best practices, and agile methodologies.

Selehann April 2022 - December 2022

Junior Front End Developer

Worked on building and maintaining user interfaces with React and TypeScript, focusing on responsive and accessible design. Supported the migration of legacy code to modern frameworks, collaborated in testing and bug fixing, and contributed to the development of internal tools to streamline workflows. Gained hands-on experience with agile methodologies and project management tools such as Jira and GitHub Projects.

Bellolandia January 2021 - April 2022

Project Manager

Led audiovisual project management, coordinating teams and ensuring timely delivery of creative productions.

Bosonit (Spain) January 2020 - October 2020

Junior Front End Developer

Assisted in web and mobile design implementation, contributing to UI development and software workflow management.

Bosonit (Spain) August 2019 - January 2020

Data Management

Worked on ETL processes and data management, supporting data-driven decision-making.
